

Application No. 09/381,573

is accompanied by a comparison document showing the changes between the original application as amended by the annex and the substitute specification. The substitute specification does not contain any new matter. Applicant respectfully requests that the substitute specification be entered in this case.

Enclosed herewith is a Request for Approval of Drawing Change accompanied by two copies of Figures 1, 3 and 4, showing in red the proposed changes. In FIG. 1, the cross-section is now designated as III-III to correspond with the reference to FIG. 3. In FIG. 3, reference numeral 7c now refers to a rod, while reference numeral 1 referring to a drive shaft has been added. In FIG. 4, reference numeral 17, together with the reference line have been deleted. The amendments merely conform the drawings to the specification, and therefore, in no way constitutes new matter. It is requested that these drawing changes be reviewed and approved by the Examiner. Applicant will formalize the drawings after allowance of the application.

In view of the foregoing amendments and remarks, consideration and allowance of this application is respectfully requested.

Respectfully submitted,
